Dear Alberto:

I hope you and all your family are well and especially that the children are completely recovered.

In Paris it was impossible to see Phillips because my skin ^{on my face} was in such bad shape that I could not shave and I had a bad bronchitis also.

I was only able to go racing one day and certainly that was the day to go to Anteuil not see a photographer. But will see you get good pictures from Cuba.

Did not see Gallimard, nor Cape. ^{only Charley Scribner.} We had a lot of business to do and did it.

When you draw up that contract with Gallimard please insert two more clauses which I will have Rice insert in our contract

- ① E.H. reserves the right to select the translator,

- ② E.H. reserves the right to select the artist who shall make the jacket for the book.
